

Press-in Piling Case History
Volume 1, 2019

International Press-in Association

IPA Research Committee

CHAIR

Tatsunori MATSUMOTO (Japan)

CO- CHAIR

Stuart HAIGH (UK)

MEMBERS

Jiro TAKEMURA (Japan)

Osamu KUSAKABE (Japan)

Jun OTANI (Japan)

Michael DOUBROVSKY (Ukraine)

Yukihiro ISHIHARA (Japan)

C F LEUNG (Singapore)

David WHITE (Australia)

Kenneth GAVIN (Netherlands)

Taro UCHIMURA (Japan)

Edited by

Masafumi YAMAGUCHI (Japan)

Naoki SUZUKI (Japan)

Tatsunori MATSUMOTO (Japan)

Yukihiro ISHIHARA (Japan)

Yuta KITANO (Japan)

List of articles

Category A: Buildings

<i>No.</i>	<i>Title</i>	<i>Author(s)</i>	<i>pages</i>
	<i>Objectives of the project</i>		
	<i>Country</i>	<i>Pile type(s)</i>	<i>Installation process(es)</i>
A01	Case Studies: Use of the Gyropress Method in Tubular Pile Earth Retaining Walls for Foundation Works in Urban Area	Tomoyuki IMANISHI & Koji KAJINO	3
	Extension of a hotel building		
	Renovation of a school building		
	Japan	Steel tubular pile	Rotary cutting press-in
A02	Control Measures for Installation and Removal of Temporary Earth Retaining Walls	Teoh Yaw POH	9
	Installation and Removal of Temporary Earth Retaining Walls		
	Singapore	Steel sheet pile	Standard press-in Vibro-hammer
A03	In-situ Load Test of Press-in Steel Pipe Pile for Seismic Isolation Retrofit	Koji WATANABE, Hiroyuki KISHI & Fumikazu OHASHI	13
	Construction of seismic isolation retrofit for an old building		
	Japan	Steel tubular pile	Jack-in
A04	The Press-in Method with Augering - Augering Area in Relation to Retaining Wall Design -	Tsunenobu NOZAKI	19
	Construction of car parks		
	UK	Steel sheet pile	Press-in with augering
A05	Effective Utilization of Underground Space in Urban Area	Takamasa TAKEUCHI & Yasumasa KIMURA	25
	Construction of underground bicycle park		
	Japan	Steel sheet pile	Press-in with augering

Category B: Roads

B01	A Case Study of Design Change in the Press-in Method	Naoki SHIBATA	33
	Renovation of bridge abutments		
	Japan	Steel sheet pile	Press-in with augering

B02	Cantilevered Road Retaining Wall Constructed of 2,000 mm Diameter Steel Tubular Piles Installed by the Gyro Press Method with the GRB system			41
	Masayuki KITAMURA & Satoshi KAMIMURA			
	Construction of cantilevered road retaining wall			
	Japan	Steel tubular pile	Rotary cutting press-in	
B03	Feasibility Study on Using Sheet Pile as Mitigation Measure for Road Failure Alongside of Canal in Thailand			49
	Ittichai BOONSIRI & Pastsakorn KITTIYODOM			
	Rehabilitation of roadway against road settlement			
	Thailand	Steel sheet pile	-	
B04	Press-in with Augering; an Installation of Steel Sheet Piles Connected Longitudinally (Hard Ground Press-in Method)			53
	Koichi MOMONO & Manabu FUJITA			
	Reinforcement of bridge pier			
	Japan	Steel sheet pile	Press-in with augering	
B05	Overview of the Self-standing and High Stiffness Tubular Pile Walls in Japan			59
	Tomoko MIYANOHARA, Tatsuaki KUROSAWA, Noriyoshi HARATA, Kazuhiro KITAMURA, Naoki SUZUKI & Koji KAJINO			
	Widening of existing roads			
	Japan	Steel tubular pile	Rotary cutting press-in	

Category C: Railways

C01	Development of Sheet Pile Foundation			69
	Hidetoshi NISHIOKA			
	Full scale field test of “Steel Pile Foundation” which are used for aseismic reinforcement			
	Japan	Steel sheet pile	-	
C02	Example of Construction of Sheet Pile Walls for Anti-Seismic Reinforcement of Railway Embankment			75
	Kazuyuki MATSUZAWA, Kenichi SHIRASAKI, Seiji KONYA & Yoshiteru SUZUKI			
	Reinforcement of railway embankment			
	Japan	Steel sheet pile	Press-in with augering, Standard press-in	
C03	Example of Construction of Sheet Pile Walls Using the Cyclic Auger Method for Anti-Seismic Reinforcement of Railway Embankment			83
	Kazuyuki MATSUZAWA, Kenichi SHIRASAKI, Seiji KONYA & Yoshiteru SUZUKI			
	Reinforcement of railway embankment			
	Japan	Steel sheet pile	Press-in with augering, Standard press-in	

C04	Reinforcement of Damaged Bridge Pier by Scouring Using Steel Pipe Piles Yusuke KUROKI, Hidetoshi NISHIOKA, Kei KUMABE & Masayuki KODA	91
	Disaster restoration of bridge pier	
	Japan Steel tubular pile with interlock Standard press-in	
C05	Seismic Reinforcement for Foundation Utilizing Sheet Piles and Soil Improvement Kohei KASAHARA, Taisuke SANAGAWA, Hidetoshi NISHIOKA, Ryoji SASAOKA & Yuki NAKATA	97
	Reinforcement of railway bridge pier	
	Japan Steel sheet pile Press-in with augering	

Category D: Rivers

D01	A New Steel Sheet-Pile Method for Countermeasures against the Settlement of Embankment on Soft Ground -Development of PFS Method- Jun OTANI	107
	Countermeasures against the settlement of embankment	
	Japan Steel sheet pile -	
D02	Construction of Steel Tubular Pile Water Cut-off Wall by the Gyro Press Method and GIKEN Water Tightening System Masayuki KITAMURA & Satoshi KAMIMURA	111
	Construction of cofferdam	
	Japan Steel tubular pile Rotary cutting press-in	
D03	Rehabilitation Work against Hurricane Katrina in New Orleans, USA Yuta KITANO	119
	Rehabilitation work against hurricane	
	USA Steel sheet pile Standard press-in	
D04	Restoration and Reconstruction of Kyu-Kitakami River Hiroho TAKADA	121
	Disaster restoration of river levee	
	Japan Steel sheet pile Press-in with augering, Rotary cutting press-in	

Category E: Harbours & Coasts

E01	Construction in Okitagawa Discharge Channel Mikiya KUBO	127
	Construction of coastal levee	
	Japan Steel tubular pile Rotary cutting press-in	

E02	Earthquake and Tsunami Disaster Preventive Measures for Sea Embankment at Usa Fishing Port, Kochi Prefecture - Application Examples of Press-In Method to Steel Pipe Pile Installation -	131
	Daisuke SHIBATA, Shuichi NAKAMURA, Yuki ANNOURA, Masami HOSHINO, Takao SASABE & Masahiro YOSHINAGA Construction of sea embankment	
	Japan Steel tubular pile Rotary cutting press-in	
E03	Application of Press-in Method to Coastal Levees in Kochi Coast as Liquefaction Countermeasures	141
	Yukihiro ISHIHARA, Hiroyuki YASUOKA & Sachio SHINTAKU Reinforcement of coastal levee as countermeasures against liquefaction	
	Japan Steel sheet pile Press-in with augering Steel tubular pile Rotary cutting press-in	
Category F: Miscellaneous		
F01	Countermeasure against Storm Surge, and Estimation of Soil Type and N value by Standard Press-in Method of Steel Sheet Pile	151
	Hideo FURUICHI, Tomohiro NAKAYAMA & Naoki SUZUKI Countermeasure against Storm Surge	
	Japan Steel sheet pile Standard press-in	
F02	Noise and Vibration Monitoring for Silent Piling in Singapore	153
	C F LEUNG & Teik-Lim GOH Construction of a cofferdam for a pumping station and reservoir	
	Singapore Steel sheet pile Press-in with augering Standard press-in Vibro hammer	
F03	Piling Tests and Induced Surface Settlement of Rotating Static Pressure Steel Pipe Pile in Shanghai Soft Soil	161
	Yingjun ZENG, Chenhui LIU & Liankai ZHANG Test piling	
	China Steel tubular pile Rotary cutting press-in	
F04	The Press-in Method Assisted with Augering: Case studies of Single U and Double Z Shaped Piles in the United Kingdom	167
	Masafumi YAMAGUCHI & Kensei YAMADA Widening of a major road Construction of a cofferdam for a relay station of tunnel	
	UK Steel sheet pile Press-in with augering	

	Retaining Wall Deflection Control in Relation to Augering Area			
F05	Tsunenobu NOZAKI			175
	Construction of earth retaining wall for train station			
	France	Steel sheet pile	Press-in with augering	
	Recovery of Skin Friction of Cambridge Gault Clay with Time Effect			
F06	Tsunenobu NOZAKI			183
	Construction of new building			
	UK	Steel sheet pile	Press-in with water jetting
