

PRESS-IN ENGINEERING 2011

Product Details

Publisher: IPA Research Committee, IPA Award Committee

Publication Date: Published(June 2011)

Paperback: 158 pages

[contents]

Messages on Publication of 2nd IPA Research Papers

- Steady Expansion of Press-in Engineering / Malcolm Bolton, Chairman
- The Weighty Responsibility to be borne by Press-in Engineering / Akio Kitamura, Honorary President

Proceedings of 3rd IPA International Workshop in Shanghai

- Review of IPA Research Papers of Press-in Engineering / Kozo Tagaya, Vice Chairman

Special Research Paper (1 Paper)

Research Paper: CURRENT STATUS AND FUTURE PROSPECTS FOR PRESS-IN TECHNOLOGY IN CHINA

Authors: Prof. Fang-Le PENG, Tongji University

Research Results of the 2nd IPA Research Grant Award (4 Papers)

Award Winner: Prof. Michael Doubrovsky, Odessa National Maritime University

Research Paper: ACQUISITION AND ANALYSIS OF INFORMATION DURING U-PROFILE SHEET PILES
PRESS-IN TO ACHIEVE CONSTRUCTION TARGET

Authors: Michael DOUBROVSKY

Award Winner: Dr Andrew M McNamara, City University, London

Research Paper: REDUCING DRIVING FORCES FOR PRESSED IN PILES

Authors: Andrew M McNAMARA, Rohit GORASIA and Domenico RETTURA

Award Winner: Dr Kohei Nagai, The University of Tokyo

Research Paper: NUMERICAL SIMULATION OF PRESS-IN BEHAVIOR IN A HETEROGENEOUS FIELD USING
ALUMINUM RODS LAYER BY DISCRETE ANALYSIS METHOD

Authors: Kohei NAGAI, Taro UCHIMURA, Yuya SAKAI, and Koichi MAEKAWA

Award Winner: Prof. A.F. van Tol, Delft University of Technology

Research Paper: EXPERIMENTAL INVESTIGATION INTO THE STRESS AND STRAIN DEVELOPMENT IN A
OPEN ENDED TUBULAR PILE

Authors: Jelke DIJKSTRA, Etienne A. ALDERLIESTE, Wout BROERE and A Frits van TOL

Research Results of the 1st IPA Research Grant Award (1 Paper)

Award Winner: Prof. Robert D .Holtz, University of Washington

Research Paper: PRESS-IN TECHNOLOGY, AN ENVIRONMENTALLY FRIENDLY ALTERNATIVE TO DRIVEN
AND JETTED PILES (Non-reviewed Paper)

Authors: R. D. HOLTZ1 and K. TAGAYA

Research Presentation at 3rd IPA International Workshop (3 Papers)

Research Paper: MECHANISM OF INNER FRICTION OF AN OPEN ENDED PILE

Authors: Yoshiaki KIKUCHI, Port and Airport Research Institute

Research Paper: ESTIMATING PPT DATA VIA CPT-BASED DESIGN METHOD

Authors: Yukihiro ISHIHARA, Koichi OKADA, Mai NISHIGAWA, Nanase OGAWA, Yukinori HORIKAWA and Akio KITAMURA, Giken Seisakusho Co., Ltd.

Research Paper: PRESENT AND FUTURE OF STEEL SHEET PILE IN CHINA(Non-reviewed Paper)

Authors: Takeshi KATAYAMA, Nippon Steel Corporation

Research Papers (2 Papers)

Research Paper: EFFECT OF SURGING IN PRESS-IN PILING:SHAFT RESISTANCE AND PORE WATER PRESSURE

Authors: Nanase OGAWA, Yukihiro ISHIHARA, Mai NISHIGAWA and Akio KITAMURA, Giken Seisakusho Co., Ltd.

Research Paper: REDUCTION OF FRICTION IN ROTARY JACKING

Authors: Mai NISHIGAWA, Koichi OKADA, Thomas BOND, Takashi YAMANE, Yukihiro ISHIHARA and Akio KITAMURA, Giken Seisakusho Co., Ltd.

Acknowledgement from IPA Editors Tadahiko Okumura, Secretary General
